

# CP414 Department Policy

Winter CP414B has reserved seats for the following three groups of students:

1. Year-5 BBA/CS double-degree students;
2. Year-4 CS majors;
3. All others.

If you are getting the "seats reserved" Loris error, it indicates that the seats, which were reserved for your target group, have been all taken.

**Note:** Your Year-level is what you see on [MyDegree](#) and Loris. For all questions about how your Year-level is calculated by [MyDegree](#) and Loris, contact [ServiceLaurier@wlu.ca](mailto:ServiceLaurier@wlu.ca).

**Note:** Consider taking a **Fall** CP414 section.

Subject to resources availability, the Department will attempt to increase the capacity limit of the CP414B section or open a new CP414 section.

Please keep monitoring CP414 on Loris for **3-4 weeks** to see if seats or a new section become available. After that, if no seats are available in Winter CP414, you may communicate your override request via the CS Administrative Assistant [pcs@wlu.ca](mailto:pcs@wlu.ca) and we will attempt to give you a capacity override in **emergency** cases only.

**Why are seats reserved?** For some courses, student's demand might exceed the course capacity and Department's resources. Therefore, the Department reserves seats for certain programs, majors, and Year Level(s).
